Buick invites you to experience our newest lineup of innovative vehicles, each designed to enhance your life from the very first drive.

We’ve styled exteriors with sleek, modern lines.

We’ve filled interiors with inviting, premium materials.

Plus, we’ve engineered each vehicle with surprising roominess, power and technology so you can make more of every day.

Explore the 2020 Envision and discover what it means to drive an SUV built to enhance every moment of your life.
BUICK ENVISION

ENVISION HIGHLIGHTS

- Spacious and refined accommodations for five
- QuietTuning™ technology with Active Noise Cancellation to help reduce, block and absorb unwanted noise
- Available Head-Up Display to project critical driving information onto the windshield
- Available 2.0L Turbo engine paired with an intelligent All-Wheel Drive system with active twin clutch
- Suite of available active safety technologies 1

1 Read the vehicle owner’s manual for important feature limitations and information.
A DESTINATION IN ITSELF

Envision blends style and performance with an exceptional degree of refinement. From its LED-enhanced taillamps and available LED headlamps to its available 19” aluminum wheels, Envision’s presence is equally elegant and athletic.
THINK OF IT AS A SPA YOU VISIT EVERY DAY

Inspiration for Envision’s interior design came from the places you go to relax in style: boutique hotels, day spas and other quiet retreats. With its refined materials and Moon White ambient lighting, Envision is your sanctuary.

SOOTHE YOUR SENSES. Envision provides a wealth of amenities and conveniences, like standard heated front seats that are eight-way power adjustable and include power lumbar support. An available heated steering wheel warms cold hands. For warm summer days, the available cooled front seats are a welcome feature. There’s even an available in-vehicle air ionizer to help keep cabin air fresher.

ATTENTION TO DETAIL AND PASSENGERS. No matter where you’re seated, Envision delivers. USB ports for smartphones and other personal devices are available in both the first and second rows. Sliding second-row seating with adjustable recline affords ample leg room, and available heated rear outboard seats keep your passengers cozy. Add available tri-zone HVAC automatic climate control and everyone can define comfort on their own terms.

*Not compatible with all devices.
WELCOME TO YOUR QUIET ZONE

The Envision interior is warm, quiet and inviting to drivers and passengers alike. Buick QuietTuning technology with Active Noise Cancellation helps reduce, block and absorb unwanted noise by utilizing many measures including triple door seals and acoustic laminated glass.

All this, so you can enjoy conversations with your passengers, quiet time for yourself or fully appreciate the available Bose® premium audio system with seven speakers and amplifier.
AN SUV THAT RUNS ON GOOD IDEAS

There’s something special about a truly intuitive cabin, with everything in its place. Important features and controls are thoughtfully designed for easy access. The available Head-Up Display projects critical information onto the windshield to help you keep your eyes on the road ahead. Envision’s unique, dual-winged center console is spacious inside and once open can be easily accessed from the first or second row. Tasteful touches like available French stitched, perforated leather-appointed seating complete the experience.
Envision makes whatever you do look effortless. There’s seating for five adults. If cargo takes precedence, there’s considerable space with both rear seats folded down. Available accessories like nets and organizers offer thoughtful solutions to help keep everything in order.

**STANDARD HANDS-FREE POWER LIFTGATE** With the keyless entry fob in your pocket, simply kicking your foot beneath the sensor provides access to the cargo area. Yet one more example of how thoughtful design makes Envision agile and adaptable.

**FLEXIBLE CARGO SPACE** The 60/40 split fold-flat rear seats make for a variety of cargo and passenger configurations. Even folding the second row flat is made more convenient with release handles on both sides of the cargo area.
AN SUV THAT FEELS LIKE A PERFORMANCE SEDAN

With two top-notch engine options, Envision gives you the power to make the most of any outing. The standard 2.5L engine is designed to impress with 197 horsepower.

Take to the road with the spirited response of Envision’s available 252-horsepower 2.0L Turbo engine, paired with an intelligent All-Wheel-Drive system with active twin clutch. It makes Envision’s performance even more precise by automatically adjusting torque to each wheel to optimize traction and respond before slip occurs.

To further enhance handling with the 2.0L Turbo engine, the available HiPer Strut front suspension provides responsive steering. In short, a vehicle that comfortably seats five can make you feel like you’re driving a performance sedan.
NEVER COMPLICATED, ALWAYS SMART

SURROUND VISION. This available system provides you with an overhead virtual “bird’s-eye” view of the scene around your vehicle on the infotainment screen to help you park and avoid collisions with nearby objects during low-speed maneuvering.

ADAPTIVE CRUISE CONTROL—ADVANCED. This available system enhances regular cruise control by using sensors including radar technology to automatically adapt the vehicle speed to maintain your selected following gap time between your vehicle and any vehicles detected ahead while you steer, reducing the need for you to frequently brake and accelerate.

REAR CROSS TRAFFIC ALERT. When in Reverse, available Rear Cross Traffic Alert can alert you to detected left or right cross traffic behind you. The available Safety Alert Seat provides you with the option of getting seat cushion pulses instead of beeps for crash-avoidance alerts.

Safety or driver-assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner’s Manual for more important feature limitations and information.
A PRIORITY OF SAFETY

PERCEIVE To help you make you more aware of your surroundings, Envision empowers you with available technologies that help raise your awareness of the road around you.

PREVENT When certain hazards are detected, available features on your Buick Envision can trigger alerts to let you know. Some features offered can even automatically apply emergency braking or gently nudge the steering wheel to help you avoid crashes or reduce their severity in some situations.

PROTECT In the event of a crash, strong structural dynamics, intelligent airbag systems and other advanced safety systems work in concert to help protect you and your passengers.

AVAILABLE DRIVER-ASSISTANCE AND SAFETY TECHNOLOGIES
- Surround Vision
- Safety Alert Seat
- Lane Keep Assist with Lane Departure Warning
- Lane Change Alert with Side Blind Zone Alert
- Rear Cross Traffic Alert
- Forward Collision Alert

- OnStar®

For a detailed look at the active safety technologies available in the 2020 Envision, please visit buick.com/envision/safety.

Safety or driver-assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner’s Manual for more important feature limitations and information.

*A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child’s age and size. Even with airbags, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner’s Manual and child safety seat instructions for more safety information.

**OnStar plan, working electrical system, cell reception and GPS signal required. OnStar links to emergency services. See onstar.com for details and limitations.
BUICK CONNECTED SERVICES Your new Buick comes with a host of in-vehicle benefits. Connected Access offers the latest technology to help you improve every drive — and you get standard connectivity for 10 years, giving you access to features like monthly diagnostic emails and the ability to order and pay for coffee and purchase fuel through your vehicle’s in-dash infotainment system. You can also take your ownership experience to new levels by upgrading to other Buick connectivity services.

myBUICK MOBILE APP When you download the available myBuick mobile app, you can have access to features like scheduling service, getting tips to improve your driving, instant offers from select nearby merchants and other ways to simplify your ownership experience. When you upgrade to Remote Access, remotely start and stop your vehicle, check fuel levels and even set and share notifications for vehicle arrivals and departures.

BUILT-IN WI-FI® HOTSPOT A built-in Wi-Fi® Hotspot with available 4G LTE data supports up to seven devices from up to 50 feet away from the vehicle. So your passengers can use their favorite apps to stream movies, watch TV, play games, listen to music and check social media on the go.

APPLE CARPLAY™ COMPATIBILITY Just plug in your compatible iPhone® and you’ll have easy access to your contacts, maps and some of the apps that you’re familiar with on your vehicle’s 8” diagonal color touch-screen. You can also have Siri® send and read your text messages, and you can listen to all of your content from iTunes® Apple Music® and other compatible audio apps.

ANDROID AUTO™ COMPATIBILITY Android Auto makes it easy to use the touch-screen display in your Envision to access your phone, texts and music. And with Google Maps™, you can get voice-guided navigation, live traffic information, lane guidance and more while keeping your hands on the wheel and your eyes on the road.

WIRELESS CHARGING Cut the cord with the help of available wireless smartphone charging. Just place your compatible device in front of the center console and charge with ease.

"Standard connectivity available online or original purchase for 10 years. See onstar.com for details and further plan limitations. Does not include safety services. Connected Access services are subject to change. Requires compatible app on Apple® or Android™ device and data connection. Remote services require paid plan and do not include emergency or security services. Remote start requires GM factory-installed and enabled remote-start system. "Requires select paid plan and compatible smartphone. Locates compatible connected vehicles. Text and data rates apply. Remote start requires GM factory-installed and enabled remote-start system. "Requires GM factory-installed and enabled remote-start system. "Requires compatible app on Apple® device and data connection. Remote services require paid plan and do not include emergency or security services. Remote start requires GM factory-installed and enabled remote-start system. "Service varies with conditions and location. Requires active service plan and AT&T® data plan. See onstar.com for details and limitations. Vehicle must be on or in accessory position for Wi-Fi® to function. "Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data-plan rates apply. Apple CarPlay is a trademark of Apple® Inc. "Vehicle user interface is a product of Google™ and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Data-plan rates apply. “The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter (back cover). To check for phone or other device compatibility, see my.buick.com/learn or consult your carrier."

ONSTAR SAFETY AND SECURITY

DESIGNED FOR ADDED PEACE OF MIND: As you travel with the ones you care about most, OnStar is available to help empower every moment. With the OnStar Safety & Security Plan, you can have a 24/7 lifeline to specially trained Advisors ready to help if you’ve been in a crash, your vehicle’s been stolen, you’re lost or you need Roadside Assistance.

EMERGENCY HELP WHEN IT MATTERS MOST: If you are in a detected crash, available Automatic Crash Response4 can use your vehicle’s built-in sensors to alert an Emergency-Certified Advisor5 who can send for help, even if you can’t ask for it. Using Injury Severity Prediction technology, these specially trained Advisors can provide first responders with critical information, including the likelihood of serious injury. You can feel confident knowing OnStar Advisors are ready to help, 24/7.

SECURITY YOU CAN TRUST: If your vehicle is stolen, OnStar Advisors can help with available Stolen Vehicle Assistance2. They can pinpoint your vehicle’s location, prevent it from restarting and work with the police to help recover it. They can even slow it down if authorities deem conditions are appropriate. Plus, with Theft Alarm Notification2, you’ll be alerted via text, email and/or a phone call if your vehicle alarm sounds.

1 OnStar plan, working electrical system, cell reception and GPS signal required. OnStar links to emergency services. See onstar.com for details and limitations. 2 Requires armed GM factory-installed theft-deterrent system and enrollment to receive alerts. Additional texting and data rates apply. 3 Roadside services provided by Allstate Roadside Services. 4 Not all vehicles may transmit all crash data. 5 OnStar Emergency Advisors are certified by the International Academies of Emergency Dispatch.
