This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in your vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Sequoia.

A word about safe vehicle operations

This *Quick Reference Guide* is not a full description of Sequoia operations. Every Sequoia owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”

1. Windshield washer fluid tank
2. Engine oil level dipstick
3. Engine coolant reservoir
4. Engine oil filler cap

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”

Automatic Transmission
- The ignition switch must be “ON” and the brake pedal depressed to shift from Park.

“S” (Sequential) mode
Shift the shift lever to “S” position from “D” position.
- +: Upshift (push and release)
- -: Downshift (pull and release)

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

TOW/HAUL switch (if equipped)
“TOW/HAUL” mode can be used when carrying heavy loads. As fuel economy is reduced while in “TOW/HAUL” mode, deactivating when driving without a load is recommended.

Refer to the Owner’s Manual for more details on this system before attempting to use it.

Auto lock/unlock
Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from Park.
- Doors lock when the vehicle speed is approximately 12 mph or higher.
- Doors unlock when shifting into Park.
- Doors unlock when the driver’s door is opened within 10 seconds after turning the ignition switch to the “ACC” or “LOCK” position.

Refer to the Owner’s Manual for more details.
**Four-wheel drive (if equipped)**

**Four-wheel drive control switch**

- 4H High speed (4WD)
  - Turn to “4H” from “2WD” with speed below 62 mph.
  - Shift to “N” position when stopped, then turn to “4H” from “4L.”

- 4L Low speed (4WD)
  - Shift to “N” position when stopped, then push and turn to “4L” from “4H.”

For best fuel economy and performance under normal driving conditions, keep in “2WD” position.

**Center differential lock/unlock switch**

Lock the center differential if the vehicle’s wheels get stuck in a ditch or when driving on a slippery or bumpy surface.

Refer to the Owner’s Manual for more details on this system before attempting to use it.

**Parkings brake**

Set: Depress
Release: Depress again

---

**BSM (Blind Spot Monitor)(if equipped)**

The Blind Spot Monitor is a system that assists the driver to confirm safety when changing lanes. The system uses radar sensors to detect vehicles that are traveling in an adjacent lane in the area that is not reflected in the outside rearview mirror (the blind spot), and advises the driver of the vehicles’ existence via the outside rearview mirror indicator.

Refer to the Owner’s Manual for more details on this system before attempting to use it.

**Seats-Head restraints**

- **Front**
  - Lock release button

- Power seat

Seat adjustments - Front

- Manual seat
- Power seat

- Seat position (forward/backward)
- Seatback angle
- Seat height
- Seat cushion angle
- Lumbar support
- Position, cushion angle and height
- Leg support (if equipped)

Seats - Folding second row seats

- (1) Lower the head restraints.
- (2) Stow the seat belt buckles.
- (3) Fold down the seatback.
- (4) Fold out the board (if equipped) from the seatback.

Refer to the Owner's Manual for more details.
Seats-Folding third row seats

1. Release the center seat belt tab.
2. Stow the center seat belt tab.
3. Lower the head restraint.
4. Stow the seat belt buckles.
5. Fold the head restraint.
6. Fold the seats.

Lights & turn signals

**Headlights**

- **Type A**
  - Auto Headlights Parking lights
  - High beam
  - Low beam

- **Type B**
  - Auto Headlights Parking lights

Cruise control

Turning system ON/OFF

Functions

1 The set speed may also be cancelled by depressing the brake pedal.
2 The set speed may be resumed once vehicle speed exceeds 25 mph.

Dynamic Laser Cruise Control (if equipped)

Refer to the Owner’s Manual for more details and complete safety precautions before attempting to use “Dynamic Laser Cruise Control.”

Fixed speed mode

Distance control mode

Distance control mode will cruise at a set speed, decelerate to maintain selected distance from a slower vehicle traveling in front of you, and accelerate back up to the selected speed if the vehicle traveling in front of you changes lanes or speeds up.

(1) To select distance control mode Push the ON-OFF button. The “CRUISE” indicator will come on.

(2) To set, cancel and resume a speed Refer to instructions for Cruise Control in this guide.

NOTE: Once vehicle speed is set, pushing lever up toward “+ RES” will increase speed to the nearest 5 mph, and then in 5 mph increments. Pushing lever down toward “- SET” will reduce speed in the same way.

(3) To change the vehicle-to-vehicle distance

Push the distance button to cycle through the settings, which will change progressively from LONG to MIDDLE to SHORT.
**Multi-Information Display (if equipped)**

Push “INFO” to change information in the following:
1. Zoom display of odometer and trip meter
2. Average gas mileage
3. Current gas mileage
4. Miles left on remaining fuel
5. Running time from engine start
6. Average vehicle speed

Push “SETUP” to customize to the following settings:
1. UNIT
2. KEYLESS ENTRY FEEDBACK
3. KEYLESS ENTRY RELOCK TIMER
4. KEYLESS ENTRY ALL DOORS UNLOCK
5. DOOR AUTO LOCKING
6. DOOR AUTO UNLOCKING
7. HEADLAMPS AUTO OFF TIMER
8. COURTESY LAMPS OFF TIMER
9. LANGUAGE
10. DEFAULT SETTING

**Door locks**

**Telephone controls (Bluetooth®) (if equipped)**

Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the compatible telephone and the system.

Refer to “Using a Bluetooth® phone” Section 3-2 in the Owner’s Manual, for more details.
Power outlets-12V DC (if equipped)

Instrument panel
Inside of the center console box
Back of the center console box

2. DVD player
3. DVD screen
4. Remote control
5. A/V input port
6. 120V AC power outlet
7. Headphone volume controls and headphone jacks

For details, refer to the “Navigation System Owner’s Manual.”
SAFETY AND EMERGENCY FEATURES

Tire Pressure Monitoring (warning) System

System reset initialization
1. Push and hold “SET” button until the indicator blinks three times.
2. Wait a few minutes to allow initialization to complete.

After adjusting tire pressures, or after tires have been rotated or replaced, turn the ignition switch to “ON” and press and hold the “SET” button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner’s Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Seat belts-Shoulder belt anchor

Squeeze lock release to lower

Doors-Child safety locks

Moving the lever downward will allow the door to be opened only from the outside.

Spare tire & tools

Spare tire, jack and tool location

Removing the spare tire

(1) Remove the cover.
(2) Assemble the jack handle.
(3) Insert the jack handle extension into the lowering screw. Lower the spare tire completely to the ground.

Refer to the Owner’s Manual for tire changing and jack positioning procedures.
There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

SAFETY AND EMERGENCY FEATURES

Smart Stop Technology (SST)

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

Floor mat installation

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Always align the Δ marks
BLUETOOTH® DEVICE PAIRING SECTION
To begin the Bluetooth Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune Multimedia Head Unit.1

**Bluetooth Pairing for Android phone and Entune touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.2

**Initiate Bluetooth on your Android**

1. From your APPS SCREEN, select SETTINGS
2. Select CONNECTIONS and select BLUETOOTH
3. Ensure BLUETOOTH is ON
4. Select YOUR PHONE DEVICE to make it discoverable.
   - Phone will seek out Bluetooth devices while remaining discoverable.
5. While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**Initiate Bluetooth on your Entune Multimedia Head Unit**

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

6. On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.
7. Select BLUETOOTH
8. Select ADD, to add your phone device
9. Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.
   - You may need to enter the provided Bluetooth PIN on your phone.
10. Your smartphone is now paired with Entune.
11. Once paired, Entune will attempt to connect audio and contacts on your phone.

---

1 To determine which head unit is installed in your vehicle, refer to page 24.
2 Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
**STEP 12**

Using your smartphone, you will need to allow Entune access to your messaging and contacts.

It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.

**Initiate Bluetooth on your Entune Multimedia Head Unit (continued)**

**STEP 13**

A confirmation will appear once your phone has been paired and connected.

**Additional Resources**

If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

- **Online Pairing Guide:**
  www.toyota.com/connect

- **Your Toyota Owner’s Manual**
  Located in the vehicle glovebox

**Bluetooth Pairing for Windows phone and Entune touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth®. This pairing process is quick and easy: all Windows Phone® mobile digital devices have Bluetooth® integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2014 models.

**Initiate Bluetooth on your Windows Phone**

- **STEP 1**
  - From your APP LIST, select SETTINGS

- **STEP 2**
  - Select BLUETOOTH

- **STEP 3**
  - Ensure BLUETOOTH is ON

- **STEP 4**
  - Phone will seek out Bluetooth devices while remaining discoverable

- **STEP 5**
  - While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**Initiate Bluetooth on your Entune Multimedia Head Unit**

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

- **STEP 6**
  - On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

- **STEP 7**
  - Select BLUETOOTH

- **STEP 8**
  - Select ADD, to add your phone device

- **STEP 9**
  - Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings. You may need to enter the provided Bluetooth PIN on your phone.

- **STEP 10**
  - Your smartphone is now paired with Entune.

- **STEP 11**
  - Once paired, Entune will attempt to connect audio and contacts on your phone.
Initiate Bluetooth on your Entune Multimedia Head Unit (continued)

**STEP 12**
Using your smartphone, you may need to allow Entune access to your contacts

**STEP 13**
A confirmation will appear that your phone has been paired and connected.
