2015 Sienna Quick Reference Guide
This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in the vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of the vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Sienna.

---

**A word about safe vehicle operations**

This *Quick Reference Guide* is not a full description of Sienna operations. Every Sienna owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

OVERVIEW

Instrument panel

Steering wheel controls

1. Audio remote control switches 1,2
2. Talk switch 2
3. Meter control switches 1
4. Vehicle-to-vehicle distance button 1
5. Cruise control switch
6. “DISP” switch 1
7. Telephone switches 2
8. Gauges and meters
9. Wiper and washer controls
10. “ENGINE START STOP” switch (Smart Key) 1
11. Audio system/Navigation system 1,2
12. Emergency flasher button
13. Outside rearview mirrors 1/Rear window defogger button/Windshield wiper de-icer 1
14. Air Conditioning controls
15. Seat heater switches 1
16. Power outlets (12V)
17. Blu-Ray/DVD player 1
18. Pre-collision braking off switch 1
19. Tire pressure warning reset switch
20. Power quarter window switch 1
21. VSC OFF switch
22. Intuitive parking assist switch 1
23. BSM (Blind Spot Monitor) main switch 1
24. Heated steering wheel switch
25. Manual headlight leveling dial 1
26. Power sliding door 1 / Power back door main switch 1
27. Headlight, turn signal and front fog light 1 controls

1 If equipped
2 For vehicles with a navigation system, refer to the “Navigation System Owner’s Manual.”
**Instrument cluster**

**Vehicles with monochrome display**

1. Tachometer
2. Service indicators and reminders
3. Multi-information display
4. Speedometer
5. Fuel gauge
6. Odometer/Trip meter display change button
7. Odometer and trip meter display
8. Engine coolant temperature

**Vehicles with color display**

1. Tachometer
2. Service indicators and reminders
3. Multi-information display
4. Speedometer
5. Fuel gauge
6. Odometer/Trip meter display change button
7. Odometer and trip meter display
8. Engine coolant temperature

**Indicator symbols**

For details, refer to “Indicators and warning lights,” Section 2-2, 2014 Owner’s Manual.

**Brake**

1. Brake system warning
2. Driver seat belt reminder
   (alarm will sound if speed is over 12 mph)
3. Charging system warning
4. Low engine oil pressure warning
5. Open door warning
6. Airbag SRS warning
7. SRS AIR BAG ON-OFF indicator
8. Vehicle Stability Control OFF indicator
9. Low Tire Pressure Warning
10. Low windshield washer fluid level warning
11. Engine oil replacement reminder
12. Third seat fold incomplete warning
13. Anti-lock Brake System warning
14. Headlight low/high beam indicator
15. Automatic high beam indicator
16. Fog light indicator
17. Turn signal indicator
18. Shift position indicators
19. Slip indicator/Hill-start Assist Control indicator
20. Blind Spot Monitor warning/Blind Spot Monitor outside rearview mirror indicators
21. Malfunction/Check Engine indicator

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.
2 If this light flashes, refer to “Cruise control,” Section 2-4, 2014 Owner’s Manual.
3 If this light flashes, refer to “Dynamic radar cruise control,” Section 2-4, 2015 Owner’s Manual.
4 The indicator flashes to indicate a malfunction.
5 The indicator flashes to indicate that the system is operating.
6 The indicator flashes faster than usual to indicate that the system is operating.
OVERVIEW

Keyless entry

**Locking operation**

<table>

<td><img src="push_and_hold_d.png" alt="Image" /></td>
</tr>
</tbody>
</table>

**Smart Key system (if equipped)**

**Start function**

- Green indicator ON
- Depress brake pedal
- Push

**NOTE:** Gear shift lever must be in Park and brake pedal depressed.

**Power (without starting engine)**

Without depressing the brake pedal, pressing the “ENGINE START STOP” switch will change the operation mode in succession from:

<table>
<thead>
<tr>
<th>ACCESSORY</th>
<th>Power</th>
<th>All systems</th>
</tr>
</thead>
<tbody>
<tr>
<td>ON</td>
<td>ON</td>
<td>OFF</td>
</tr>
</tbody>
</table>

**ACCESSORY**

Accessories such as the radio will operate.

**Unlocking operation**

<table>
<thead>
<tr>
<th>Front door lock</th>
<th>Front door unlock*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carry remote to lock</td>
<td>Carry remote to unlock</td>

</thead>
<tbody>
<tr>
<td>Touch</td>
</tr>
</tbody>
</table>

**Sliding door unlock**

<table>
<thead>
<tr>
<th>Carry remote to lock</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pull</td>
</tr>
</tbody>
</table>

**Back door lock/unlock**

<table>
<thead>
<tr>
<th>Carry remote to lock/unlock</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unlock</td>
</tr>
</tbody>
</table>

*Driver door unlocking function can be programmed to unlock driver side doors only, or all doors. Grasping any passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
**Fuel tank door release and cap**

- Pull up to release the fuel tank door.
- Turn to open.
- Store the fuel tank door.
- Turn to close.

**NOTE:** Tighten until one click is heard. If the cap is not tightened enough, Check Engine "\( \text{\ding{119}} \)" indicator may illuminate.

**Hood release**

- Pull the hood release to open the hood.
- Pull up latch and raise hood.
- Insert rod to hold hood open.

**Light control-Instrument panel**

Pressing the button will adjust the brightness of the meter panel lights. The brightness level of the meters when the surroundings are bright (day mode) and dark (night mode) can be adjusted individually.

**Engine maintenance**

1. Windshield and rear window washer fluid tank
2. Engine oil filler cap
3. Engine oil level dipstick
4. Engine coolant reservoir

**NOTE:** Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”
FEATURES/OPERATIONS

Auto lock/unlock
Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from Park.
- Doors lock when the vehicle speed is approximately 12 mph or higher.
- Doors unlock when shifting into Park.
- Doors unlock when the driver’s door is opened within 10 seconds after turning the “ENGINE START STOP” switch OFF. (Vehicles with a Smart Key system)
- Doors unlock when the driver’s door is opened within 10 seconds after turning the ignition switch to the “ACC” or “LOCK” position. (Vehicles without a Smart Key system)

Refer to the Owner’s Manual for more details.

Automatic Transmission

* The “ENGINE START STOP” switch/ignition switch must be “ON” and the brake pedal depressed to shift from Park.

“S” (Sequential) mode
Shift the shift lever to “S” position from “D” position.
  + : Upshift (push and release)
  - : Downshift (pull and release)
Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.

Parking brake

BRAKE

Set: Depress
Release: Depress again

Tilt and telescopic steering wheel

Hold wheel, push lever down, set angle and length, and return lever.

NOTE: Do not attempt to adjust while the vehicle is in motion.

Lights & turn signals

Headlights

- Daytime Running Light system (DRL) Automatically turns on the headlights at a reduced intensity on some models.
- Automatic light cut off system Automatically turns lights off after a delay of 30 seconds, or the lock switch on remote may be pushed after locking.
**FEATURES/OPERATIONS**

**Windshield wipers & washers**

**Front**

<table>

</tbody>
</table>

Refer to the Owner’s Manual for more details.

Seats - Removing second row outside seats

Tip-up seats

1. Pull
2. Lift

Ottoman seats

1. Pull

Seats - Removing second row center seat (if equipped)

1. Pull
2. Lift
3. Remove
SEATS-STOWING THIRD ROW SEATS

**Manual**
- (1) Lower
- (2) Push down
- (3) Stow the seat belt buckles

**Power**
- (1) Lower
- (2) Pull
- (3) Stow the seat belt buckles

An alarm will sound for 10 seconds and the **3RD SEAT** indicator will light up on the instrument panel if the seat is not fully open or stowed when vehicle is shifted out of Park.
Refer to the Owner’s Manual for more details.

DOORS-POWER SLIDING (IF EQUIPPED)

**ON/OFF switch**
- Instrument panel
  - Off
  - On

**Opening/Closing**
- Front overhead console
  - Open: Push
  - Close: Push again

- Center pillar
  - Open: Push
  - Close: Push again

**Power**
- Sliding doors will not fully open if the sliding door window is open.
- Power sliding doors will open only when gear selector is in the “P” (Park) position, and doors are unlocked. Refer to the Owner’s Manual for more details.
- An alarm will sound if a sliding door is open and the vehicle is shifted out of Park.
- Left sliding door will not open if gas door is open.
- If battery is disconnected, the power sliding doors need to be reinitialized.
Refer to the Owner’s Manual for more details.

**Manual**
- Sliding doors will not lock into the open position if the sliding door window is open.
<table>

<td>Open: Push again</td>
<td></td>
</tr>
<tr>
<td>NOTE: If battery is disconnected, the power back door needs to be reinitialized. Refer to the Owner’s Manual for more details.</td>
<td>Push once to open partway; again to open completely.</td>
<td></td>
</tr>
</tbody>
</table>
**BSM (Blind Spot Monitor) (if equipped)**

The Blind Spot Monitor is a system that assists the driver in safely changing lanes. The system uses radar sensors to detect vehicles that are traveling in an adjacent lane in the area that is not reflected in the outside rearview mirror (the blind spot), and advises the driver of the vehicles’ presence via the outside rearview mirror indicator.

Refer to the Owner’s Manual for more details on this system before attempting to use it.

**Cruise control (if equipped)**

<table>
<thead>
<tr>
<th>Turning system ON/OFF</th>
<th>Functions</th>
</tr>
</thead>
<tbody>
<tr>
<td>System ON/OFF</td>
<td>Indicator</td>
</tr>
<tr>
<td></td>
<td>SET</td>
</tr>
<tr>
<td>System ON/OFF</td>
<td>Cancel</td>
</tr>
<tr>
<td></td>
<td>Set/Decrease speed</td>
</tr>
<tr>
<td>System ON/OFF</td>
<td>Resume/Increase speed</td>
</tr>
</tbody>
</table>

1 The set speed may also be cancelled by depressing the brake pedal.
2 The set speed may be resumed once vehicle speed reaches 25 mph.

**Dynamic radar cruise control (if equipped)**

Refer to the Owner’s Manual for more details and complete safety precautions before attempting to use “Dynamic radar cruise control.”

**Fixed speed mode**

1. Push System ON/OFF
2. Push and hold System ON/OFF

To set, cancel and resume a speed Refer to “Functions” in the Cruise Control section, and to the Owner’s Manual for more details.

**Distance control mode**

The distance control mode will cruise at a set speed, decelerate to maintain a selected distance from a slower vehicle traveling in front of you, and accelerate back up to the selected speed if the vehicle in front changes lanes or speeds up.

To set, cancel and resume a speed Refer to “Functions” in the Cruise Control section, and your Owner’s Manual for more details.

**NOTE:** Once vehicle speed is set, pushing lever up toward “+ RES” will increase speed to the nearest 5 mph, and then in 5 mph increments. Pushing lever down toward “- SET” will reduce speed in the same way.

To change the vehicle-to-vehicle distance

Push the distance button to cycle through the settings, which will change progressively from LONG to MIDDLE to SHORT.
FEATURES/OPERATIONS

Audio

**Type 1**
- Eject CD
- Touch screen display
- Push to pause or resume playing
- Seek station/CD track select
- Push to display Bluetooth® hands-free system
- Turn to tune radio stations manually or select tracks or files

**Type 2 (additional functions)**
- MAP card slot
- Push to display AUDIO screen
- SETUP button
- Push to display vehicle information
- Push to turn ON/OFF

**iPod®/USB/AUX port**

**iPod®/USB port (if equipped)**
By connecting a USB-compatible portable audio device or USB memory to the USB port, you can listen to music from the portable audio device or USB memory through the vehicle’s speaker system.

**AUX port**
By inserting a mini plug into the AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in AUX mode.

Steering wheel switches and Telephone controls (Bluetooth®)

- **Volume control**
- **“∧ ∨”**
  Use to search within the selected audio medium (radio, CD, iPod®, etc.).
- **Back switch**
- **Enter switch**
- **End call**
- **Start call**

Bluetooth® technology allows dialing or receipt of calls without taking hands off the steering wheel or using a cable to connect the telephone and the system.

Refer to “Using the hands-free phone system (for cellular phone),” Section 3-5 in the Owner’s Manual, for more details.
Air Conditioning/Heating

Front Air Conditioning

Control panel

1. Windshield defogger
2. Front fan speed
3. Display
4. Temperature selector (front passenger side)
5. Air Conditioning ON/OFF
6. Recirculated cabin air (outside air when OFF)
7. Rear fan speed
8. Synchronizes driver, front passenger and rear temperature settings
9. Temperature selector (rear)
10. Rear airflow vent
11. Rear button indicator display
12. Front fan ON/OFF
13. Automatic climate control ON

Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.

14. Temperature selector (driver side)
15. Airflow vent
   In “” mode, use fresh air (“” indicator “OFF”) to reduce window fogging. “” mode uses fresh air only.
16. Outside rearview mirror/Rear window defogger and windshield wiper de-icer (if equipped)

Rear automatic Air Conditioning

Seat heaters (if equipped)

Driver’s seat
Front passenger’s seat
Hill-start Assist Control (HAC) (if equipped)

HAC helps prevent rolling backwards on an incline. To engage, push further down on brake pedal while at a complete stop until a beep sounds and slip indicator illuminates. HAC holds for approximately 2 seconds after releasing brake pedal.

Refer to the Owner’s Manual for more details.

Garage door opener (HomeLink®)* (if equipped)

Garage door openers manufactured under license from HomeLink® can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to “Garage door opener,” Section 3-8 in the Owner’s Manual, for more details.

For programming assistance, contact HomeLink® at 1-800-355-3515, or visit http://www.homelink.com.

* HomeLink® is a registered trademark of Gentex Corporation.
**Power outlets-12V DC**

- **Instrument panel**
  - Type A

- **Luggage compartment**

Ignition/“ENGINE START STOP” switch must be in “ACC” or “ON” position for use.

**Power outlets-120V AC (if equipped)**

- **Console box**
  - Type A
  - Type B

- **Luggage compartment**

Ignition/“ENGINE START STOP” switch must be in the “ON” position for use.

**Bottle holders**

- **Front doors**

**Sliding doors**

**NOTE:** Do not place open containers in the bottle holders.
**SAFETY AND EMERGENCY FEATURES**

**Door locks**

Moving the lever downward will allow the door to be opened only from the outside.

**Doors-Child safety locks**

Rear door

**Seat belts-Shoulder belt anchor**

Push up, or squeeze lock release to lower

**Child restraint anchors**

Second seat 8 passenger models
Second seat 7 passenger models
Third seats
SAFETY AND EMERGENCY FEATURES

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Tire Pressure Monitoring (warning) System

System reset initialization
1. Push and hold “SET” button until the indicator blinks three times.
2. Wait a few minutes to allow initialization to complete.

After adjusting tire pressures, or after tires have been rotated or replaced, turn the ignition switch to “ON” and press and hold the “SET” button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner’s Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.

Spare tire & tools

All-Wheel Drive models are equipped with run-flat tires. Refer to the Owner’s Manual for more details.

Tool and spare tire location

1. Tire bag
2. Jack
3. Wheel nut wrench
4. Socket adapter
5. Tire strap
6. Jack handle
7. Spare tire

Removing the spare tire

Two-wheel drive models

Refer to the Owner’s Manual for jack positioning and tire changing procedures.
There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Smart Stop Technology (SST)

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

Floor mat installation

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Star Safety System™

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

Vehicle Stability Control (VSC)

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

Traction Control (TRAC)

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

Anti-Lock Brake System (ABS)

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

Electronic Brake Force Distribution (EBD)

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

Brake Assist (BA)

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.
To begin the Bluetooth® Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit.¹

**Bluetooth® Pairing for Android® phone and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

**Initiate Bluetooth® on your Android®**

1. From your APPS SCREEN, select SETTINGS
2. Select CONNECTIONS and select BLUETOOTH
3. Ensure BLUETOOTH is ON
4. Select YOUR PHONE DEVICE to make it discoverable.

Phone will seek out Bluetooth devices while remaining discoverable.

5. While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**STEP 6**

On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

**STEP 7**

Select BLUETOOTH

**STEP 8**

Select ADD, to add your phone device

**STEP 9**

Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**

Your smartphone is now paired with Entune.

**STEP 11**

Once paired, Entune will attempt to connect audio and contacts on your phone.

---

¹ To determine which head unit is installed in your vehicle, refer to page 22.
² Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
Initiate Bluetooth® on your Entune™ Multimedia Head Unit (continued)

STEP 12
Using your smartphone, you will need to allow Entune access to your messaging and contacts.

STEP 13
A confirmation will appear once your phone has been paired and connected.

Bluetooth® Pairing for iPhone® and Entune™ touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all iPhone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2015 models.

Initiate Bluetooth® on your iPhone®

STEP 1
From the HOME SCREEN, select SETTINGS

STEP 2
Select BLUETOOTH

STEP 3
Ensure BLUETOOTH is ON

STEP 4
Your iPhone will seek out Bluetooth devices while remaining discoverable

STEP 5
While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

CONTINUE ON THE NEXT PAGE...
Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
Select SETUP BUTTON on the Home Screen.

**STEP 7**
Select BLUETOOTH.

**STEP 8**
Select ADD, to add your phone device.

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.

You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.

**STEP 12**
Using your smartphone, you may need to allow Entune access to your messaging and contacts. Only current iPhone text messages can be viewed on the head unit. iPhone does not allow text message reply.

**STEP 13**
A confirmation will appear once your phone has been paired and connected.
